

Quilosa Chrome Effect Spray

High-quality effect decorative spray paint to use on treated and untreated surfaces like wood, metal, aluminum, glass, stone and various kind of plastics. Creates fantastic, attractive metal look. Due to technical reasons it's not re-sprayable with clear lacquer.

Benefits

- Very good coverage
- Excellent adhesion
- Effect of gloss can change by intense rubbing or wiping
- Quick-drying
- Good flow, smooth surface
- Metallic gloss

Characteristics

Contents : 400 ml

Base : acrylic resin

Color: similar to cap

Coverage : depends on colour of the ground- from 1,25 m² to 1,75 m²

Dust dry : After approximately 5-10 minutes

Cured: after approx.24 hours

Heat resistant : to 80°C

Storage/warranty: 10 years if appropriate storage provided (=10°-25°C, relative air humidity of max. 60%) *

Usage

Before use, carefully read the directions on the packaging and act accordingly.

Treatment

The surface should be clean, dry and free of grease. Remove loose old lacquer and rust and sand the surface. The can should have room temperature. Best results will be achieved during surrounding temperature of approx. 15-25°C. Test the colour at an invisible spot. To achieve excellent result apply a layer of primer suitable for the surface. Before use, shake the can for 2 minutes. Distance to the surface to be treated approximately 25-30 centimeter. Apply the lacquer in several thin layers. Do not use finishing coat clear lacquer. Do not spray over surfaces which are painted with synthetic resin lacquer.

Store in a dry place. Protect from direct sunlight and other sources of heat. Use only during dry weather, in places protected from the wind and in well-ventilated rooms. Follow the warning texts on the labels! **The drying time depends on the ambient temperature, the humidity of the air and the thickness of the lacquer applied.**

*10 years warranty-means products save their properties for 10 years from production time (exp. date shown on the can).
